

ABOUT US

Bh Best Arms is a brand affiliated to Best Huglu Tüfek Sanayi LTD. STI. company. Best Huglu started to run with production and design of walnut stocks and other parts of shotgun in 1977.

Bh Best Arms uses raw materials and equipment complying with world standards in production and uses the latest quality control techniques while working diligently with skilled personnel in order to maintain this quality in all production stages. All shotguns produced are tested under the most difficult conditions, taking into account the TSE, CIP and the official standards of the importing country.

Today, Bh Best Arms produce over 70.000 shotguns in a year and all shotguns are exported more than 10 different countries (USA, Canada, South Africa, England, Czech Republic, Azerbaijan etc.) Bh Best Arms cares about its customers confidence before anything else and sends samples in advance to establish a long term trust.

The company offers unforgettable experiences to its customers with its stylish and high quality products which are produced by blending traditional craftsmanship with advanced technology. Bh Best Arms specializes in the production of customized shotguns in series production lines. In addition, in the 5000 square meter indoor production facility, it supplies shotgun parts to 40% of the other manufacturers in the local region as a subcontractor.

The company works with customers in many parts of the world and projects according to the demands of the region and supports its exclusive partners with its projects to grow together.

OUR MISSION

As a direct export brand of Best Huglu Tüfek Sanayi, Bh Best Arms offers its customers the best prices on the market with direct sales from the factory. Bh Best Arms is dedicated to producing durable, safe and stylish shotguns with affordable prices to serve all the customers around the world.

OUR VISION

Providing continuity as the first choice of customers with the most valuable service and product quality in the world, becoming a leading brand in the sector.

Pontus INERTIA SYSTEM

bh bestarms
BESTHUGLU

BOLT

Bh Best Arms are able to quickly cycle even the lightest 12 gauge loads with carefully crafted rotating bolt. Inertia system consists of 3 main parts; bolt mechanism, rotating bolt, and inertia spring.

Thanks to its simple combination, inertia system functions faster and flawlessly. Unlike the gas operated systems, since the burnt powder gas does not contact with the mechanism, system remains clean and requires less maintenance.

BARREL

Drilled from 4140 steel, each and every barrel controlled for internal tiny cracks with magnetic resonance. Tested with 1.550 BAR.

RECIEVER

Pontus, produced with the Double Reciever system, provides ease of disassembly and cleaning. Each reciever is machined from quality aluminum materials and all controls are provided. It appeals to the end user as a visually premium shotgun.
